

Michigan Online School

Epinephrine Auto-Injectors Policy

Students who are prescribed epinephrine to treat anaphylaxis shall be allowed to self-possess and self-administer the medication.

Michigan Online School shall have at least one person trained in the appropriate use and administration of an Epi-Pen injection. Training of Michigan Online School employees on the appropriate use and administration of an Epi-Pen injection shall be done in accordance with any guidelines provided by the Michigan Department of Education and shall be conducted under the supervision of a licensed, registered medical professional. The training shall include an evaluation of the employees' understanding of the protocols for administering an Epi-Pen injection.

A trained and authorized Michigan Online School employee may administer Epi-Pen injections to any individual at a Michigan Online School event who is believed to be having an anaphylactic reaction.

Any Michigan Online School employee who administers an Epi-Pen injection to a student will notify the student's parent and the appropriate school administrator that an injection has been administered.

Michigan Online School shall report at least annually to the Michigan Department of Education information on the number of injections provided to students, the number of injections with Michigan Online School Epi-Pens and the number of incidents where students were not known to be subject to severe allergic reactions.
