

Michigan Online School

School Improvement Policy

The Michigan Online School Board of Directors supports school improvement as established by the State Board of Education and will seek to create and/or maintain an effective school as defined by state guidelines.

In addition to adopting a Mission Statement for Michigan Online School, the Board shall create policies which support the School Improvement Process.

The Superintendent will ensure that the following objectives can be achieved:

- A. School improvement plans will be developed and implemented by school teams that work collaboratively on goals which can be achieved through effective planning, problem-solving and assessment. Each such team is to include professional staff members, support employees, students, parents and representatives of the community.
- B. The Michigan Online School improvement plan is to include: goals based on academic outcomes; curriculum aligned to the goals; progress monitoring and evaluation; staff development; and use of resources.
- C. The improvement plan will be reviewed regularly and updated annually.
